Dear Mr. Furtner,

The ceremonial cake you made for the Castlegar coat of arms ceremony was a very beautiful one and I wanted to add my congratulations to the many others I am sure you have received from your fellow citizens.

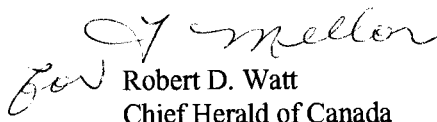

Having seen a number of such cakes in different parts of Canada over the past several years, yours was an impressive achievement. It was especially in the way you translated the smaller colour illustration and expanded the coat of arms to fill the surface so pleasingly. Your matching of the colours was also very striking.

I hope that several good photographs were taken before the cutting. Your work deserves to be remembered in the archival record of the occasion.

Last but not least, I feel fortunate to have been among those who not only got to admire your artwork but taste it also.

Congratulations again.

Sincerely,
